Free Download for Android Free Download for Android Free Download for Android Free Download for Android APK Editor is a free utility tool developed by SteelWorks for mobile devices. It is an Android Package (APK) editor that lets users open and modify various... Android android android tools Free Download for Android Free Download for Android Free Download for Windows Free Download for Windows Free Download for Windows Free Download for Windows Free Download for Android Last month, Google released the most anticipated Android 13 firmware update for the Pixel smartphones. This new update is hitting non-Pixel devices right now via beta programs or stable channels from the respective smartphone manufacturers. Custom ROM development has also begun, so, users need Gapps packages. Here, download GAPPS for Android 13. Android 13 focuses on controls for "privacy and security" for the end-user. It improves privacy, adds security, focuses on developer productivity, brings an enhanced Material You-based wallpaper theme engine, as well as adapts to screens of all sizes including tablets and larger screens. Google has listed all the new Android 13 features and changes on this page: Google Pixel Update - Android 13. In addition to this, Google also published a blogpost featuring 13 new features in Android 13. Here is a summary of Android 13 features: Android 13 comes with more customization with the new Material You design Enhanced privacy and security Adjust to any screen — like a smartphone, tablet, laptop Updated media player and more widgets that tailors its look and feel based on the content Updated Digital Wellbeing Improved Copy and Paste Copy content — like a URL, picture, text, or video — from your Android phone and paste it onto your tablet. Fewer Notifications Better Tablet Support Quick QR Code Scanner Improved Media Player Smart-Home Controls on the Lock Screen Double Tap for Flashlight Bluetooth LE Audio Support Encrypted Group Chats Different Languages for Apps The New Google Wallet Google Apps (Gapps) GAPPS, also referred to as Google Apps package, features apps like GMS (Google Mobile Services), Play Services, Play Store, YouTube, Google Assistant, Chrome, and more. Latest Android 13 GSI (Generic System Image) is now available for download publicly. The AOSP sources are also available. Android 13 custom ROMs are already popping up for various devices. Some are pre-installed with Gapps compatibility. Here, download the latest Gapps packages for custom ROMs that do not come with Google Apps pre-installed like the Lineage OS 20. Download Android 13 Gapps for ARM & ARM 64 Devices Here you will find Gapps that support the latest Android 13 ROM compatible with several device architectures (ARM 64, ARM, X86). You can: Easily Find Processor Architecture on Android Device: Find arm, arm64, x86 and all CPU Info. Gapps packages are available from LiteGapps as flashable zips. In the part 2, you may also try the Google Installer APK. It may or may not work though. Android 13 GAPPS Download Android 13 is quite new. So the Gapps or Google Apps take some time to develop. Currently, only a couple of Gapps for Android 13 are available for download. This includes LiteGapps by litegapps and waihy6070. Download LiteGapps for Android 13 (sourceforge) Open Gapps for Android 13 The Open Gapps will be released for Android 13 soon! Download Open Gapps for Android 13 | coming soon... Stay tuned for Open Gapps and more. Android 13 GAPPS APK: Google Apps Installer APK This Google Installer APK is the quickest way to install necessary Google Apps on your Android devices without going into TWRP recovery. It will install Google Apps like Play Services and the Play Store. Later, you can manually download the rest of the Google Apps from the Play Store. We have also posted the Google Installer APK in the first link. Google Installer APK | Downloads (post link) Join our Telegram Channel. Google Installer App APK Download on your Android device and enjoy all the Google Apps in your Chinese Smartphone. Google Installer is a G-App package to run Google Apps on Chinese Devices as some countries have very strict policies for using the apps developed in other territories like that in China. Chinese internet industry does not allow their people to use Google Apps like YouTube, Gmail, Maps, Docs, Snapsed etc. There is also restricted use of Google search. Facebook and other social sites are also blocked in this country. Due to the complete block of all Google Apps, it is very difficult for running some supportive apps which rely on Google Apps. The OS developed for China are barred from Google Apps and therefore it is quite difficult to download the Gapps. The Chinese forked Android OS for various devices like Xiaomi MIUI, Oppo ColorOS, Meizu, Alcatel, Gionee, OnePlus Hydrogen OS, LeEco, Huawei, ZTE etc have their own App Store. It is important to note that Google Play is not banned in China. Few phone manufacturers in China do pre-install it. However, it is Google who bans all paid apps and apps with in-app purchases for Chinese users. Today I have come up with one of the best solutions to use all Google apps on your Smartphone without much difficulty. All you need is download the Google Installer App on your Mobile and enjoy all Gapps. What is Google Installer? Google Installer is a software App package which lets you install all the Google Apps on your Android phone if your device lacks GMS Suite which is possible in case if you have Chinese Local Smartphone which does not run on G-Apps Package. With G-Installer you can run all the G-Apps which otherwise would be impossible due to lack of there app suite. Key Features of Google Installer All Google Apps, Google Play Store and Play Services Availability, Support Android 4.0+ Google Services Framework, Google data sync. Download and Install the Google Installer App (Gapps) Here is the complete guide on installing the Google installer on Chinese Mobile Version. Steps to Install Google Installer Apk Download Google Installer Apk 2.0 Download the Google Installer APK file on your Android mobile. Go to Settings -> About Phone -> Tap 7 times on Build Number. This will activate "Developer Options." In Developer Options -> Allow Mock Location, enable it. On your Android phone, go to Settings -> Security -> Unknown Sources (Enable it). Now locate the downloaded apk file in the storage and install it. Open the app. You will see a blue circle tap on it. Click on the yellow circle. Google Installer Apk Now install the Google Services Framework on your smartphone. Tap the Red button on the screen. Accept the Terms and allow all the permissions. Holla! You have just made your Android phone ready for Google Apps. I recommended you to first install Google Play Services and other related Apps and then go with Maps and Play Store. Google Installer For Meizu Devices Download The steps are the same for all the China ROM devices just. You can also use ES Explorer to locate the Installer APK and further download the Google Play Store and other GSM Apps. Steps to Install Google Installer on Xiaomi MIUI 8 & MIUI 9 Method 1. Using Installer APK (China ROM) Download Google Installer for MIUI 9 Download Download Google Installer 3.0 for Xiaomi MIUI11. Enable the Unknown Sources on your phone. Go to Settings -> Additional Settings -> Privacy and Enable Unknown Sources. 2. Locate the Google Install apk and tap on it to install. 3. Once the file is installed, a new icon with the Chinese language is available in your app drawer. 4. Now open that app on your phone to start the installing process. A new page will open on your screen with Blue Circle. Tap on it and install the Google Files on your phone. This will take some time near about 5 minutes. 5. Once all the files are installed on your phone. You will see the Google Play store app on your phone. Now you can install your favourite app like Gmail, Youtube, Chrome from the Google Play Store. Method 2. Using Xiaomi App Store (Internal ROM) Step 1. Go to Tools -> Downloads -> Tap three dots in the upper right corner -> Settings -> Download Size Limit -> Select Unlimited. Step 2. Launch the App Store. Search "Google" as a keyword. Find the Google Installer icon then click on Install. Step 3. Holla! Google Installer has been installed on your device. Install the Google Play Store and G-Apps As Google Services Framework is installed you can now install and run Google Play Store and enjoy all the Google Apps on the device. You can also install Google Play Services on the phone which is required for running of Google Apps and other Apps Service like Snapchat, Tinder etc. Install Apps from Play Store API without Google Account Google Play API Client Alternatives to Download Apps from Google Servers without G-Account 1. Aurora Store Aurora Store is an unofficial FOSS client to Google's Play Store. It means you can download apps from the Google Play Store without any Google Account. Aurora Store itself is an independent app store but lets you download apps from Google Store Servers. It works in a similar way as the YouTube Vanced works for YouTube. The Aurora Store uses the Play Store API and delivers the apps from Play Store Servers. The Aurora Store can run without any Google Account. You can download and update apps directly from Google Servers ensuring complete safety of the app from any inject of virus or malware. It is a lightweight application and comes with a very elegant, clean and fluid user interface. Download Aurora Store 2. Yalp Store There is a Freeware App store which installs Apps from Google Play Store without any requirement of G-Apps Suite or Google Account. This App store is called Yalp Store. Most custom ROM developers make their ROMs available without the Google Mobile Services Suite due to its not so good effect on a device's battery and performance. Yalp Store lets you download APK's and install updates directly from the Google Play Store without having to install Google Apps or the GMS suite. You can watch download Apps from Play Store without Google Account. Go to Yalp Store Download Page You can manually download Google Apps one by one on your device to avoid unnecessary G-Apps to take your device space. If you wish you can log in to your Google Account or by default use a fake Yalp Account to access the Play Store. Note & Conclusion: The post above would have helped you to install the Gapps on your Android if you are running on China ROM, or a Custom Built ROM. I hope the post was helpful. Do comment below for any assistance or support if needed. If you've any thoughts on Download Google Installer Apk for Android devices, then feel free to drop in below comment box.
